"Whether it is vintage or contemporary, I take tremendous pride in bringing life into a space. I hand cut each piece of glass because evenly pre-cut shapes are boring to me. I may use glass beads or natural stones in some of my designs. "

After much planning and prayer, in May of 2019 I stepped out on faith and retired early in order to pursue my passion for art fulltime. I have not looked back since.

BROOK HUFFMAN

@THEVELVETBOOK

Brook, a resident of Birmingham, Alabama, is a self-taught artist who has been creating for 20+ years. Her work is inspired by Outsider and Intuitive Art focusing on the healing power of creating and exploring the subconscious mind of self, and connecting the world as a whole. In this way, painting offers complete freedom as one can learn through experience and experimentation as well as from those who have come before for guidance.
